ASSISTANT SECRETARY OF DEFENSE

WASHINGTON, D. C. 20301

16 MAR 1967

DEPUTY DIRECTOR OF
DEFENSE RESEARCH AND ENGINEERING

MEMORANDUM FOR: Mr. John A. McCone
Director, Central Intelligence Agency

SUBJECT: (U) Department of Defense Review of Missile and
Space Intelligence Programs

1. The advance copy of the DoD Review of Missile and Space Intelligence Programs of DoD Components was forwarded to permit CIA to be fully aware of DoD resources now allocated to this important intelligence activity. Also, it provides information on actions proposed and under way to improve the effective and economical utilization of DoD resources considered essential to the DoD mission. These actions are being taken both in response to the initial DIA charter directives, DoD Directives 5105.21 and 5105.28, and the findings of the Review. All actions are to be achieved within existing DoD resources.

2. The report sent to you identifies with considerable precision DoD resources in this area. In order to effect full coordination, interchange and mutual support between DoD and CIA, a similar identification of CIA resources and procedures would be most helpful.

3. The Secretary of Defense has asked the JCS to review and make recommendations on the report. A formal proposal to you, as recommended in the report, must await action by the Secretary of Defense.

4. Your statutory responsibilities under the National Security Act are fully appreciated and understood. It is hoped, however, that in the collation and evaluation of intelligence relating to national security and providing for appropriate dissemination of such intelligence within the Government, you will continue to rely on the DoD for intelligence which the DoD must collect and produce as essential to its operating, R&D, and overall Defense mission.

OFFICE OF THE DIRECTOR

MEMORANDUM FOR: Dr. Eugene G. Fubini
Assistant Secretary of Defense

Lt. General Joseph F. Carroll
Director, Defense Intelligence Agency

SUBJECT: Department of Defense Review of Missile
and Space Intelligence Programs

1. Reference is made to your memorandum dated 16 March 1964, same subject.

2. I am anxious to continue coordination and interchange of information regarding our missile and space intelligence efforts and have found the DOD review quite helpful in this respect. No comparable study of CIA resources has been made nor is one planned at this time. Through a series of briefings plus my memorandum to the Secretary of Defense, dated 26 November 1963, and my memorandum to you, dated 4 March 1964, I believe CIA's resources and procedures have been fully described.

JOHN A. McCONE
Director
